INSTALLER CODE DEFAULT WAIVER – INNER RANGE

It is herewith agreed by all parties whose signatures appear on this document, that:

1. Inner Range Pty. Ltd. is a company that manufactures and sells Security Alarm and Access Control systems.
2. These Systems are in most cases, installed by a technically literate and industry experienced person hereinafter called the installer.
3. Inherent in the installation of these Systems may be hours of software customisation hereinafter called System Programming.
4. This System Programming may be protected by the use of an Installer PIN number in the system. This Installer PIN number may be unique to that Installer.
5. It is possible for Inner Range Pty Ltd, or one of its authorised distributors, to by-pass the protection provided by the Installer PIN number and reset the Installer PIN number whilst leaving the System Programming intact.
6. Situations may arise, whereby a person in possession of an installed Inner Range system may wish to engage the services of a new Installer to maintain their system, and the old installer for some reason refuses to release System Programming to either the system owner or the new Installer. Further cases may arise whereby the old Installer can no longer be contacted.
7. The enactment of this document signifies that such a situation has now arisen and Inner Range Pty. Ltd. or its authorised distributor has been asked to default the Installer PIN number of the system described below, so that the Installer may access the System Programming as it is currently configured.
8. The party, whose signature appears below as the system owner, hereby warrants that they have paid in full for the ownership of the System and the associated labour for its installation and it's System Programming.
9. The system Owner and the new Installer by their signatures below hereby jointly and severally unconditionally indemnify Inner Range Pty. Ltd. and it's authorised distributor, to default the Installer PIN number.
